Education

Columbia University

Expected Dec 2026

Master of Science in Computer Science, Software Systems Track

New York, USA

Coursework: Operating Systems, Programming Languages & Translators, Analysis of Algorithms, C++

French-Azerbaijani University

Oct 2020 - Jul 2024

Bachelor of Science in Computer Science, GPA: 98/100

Baku, Azerbaijan

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Architecture, Web Development, Networks & Protocols, Operating Systems, Cloud Computing, Security, Parallel Programming

Technical Skills

Languages: Java, Javascript, Typescript, Python, C, C++, Rust, HTML, CSS, SQL

Technologies/Frameworks: NestJS, Express, Spring Boot, FastAPI, React, Socket.io, Docker, FCM, ELK

Database Tools: MySQL, PostgreSQL, Oracle, MongoDB, Redis, TypeORM, Prisma, Mongoose, MyBatis

Experience

Azercosmos (National Space Agency of Azerbaijan)

Feb 2024 - Aug 2025

Software Engineer

Baku, Azerbaijan

- Designed user and map interfaces for front-end projects with **React**, **ArcGIS**, **Tailwind**, and **Tanstack Query**
- Served back-end and artificial intelligence applications with **FastAPI**, **Torchserve**, and **Docker**
- Devised database architecture for geospatial data with **PostgreSQL**, **PostGIS**, and **LucidChart**

Azercell LLC

Jul 2023 - Feb 2024

Software Engineer Intern

Baku, Azerbaijan

- Worked on enterprise applications with **Java**, **Spring Boot**, **Oracle**, **PL/SQL**, and **Toad**
- Developed user interfaces with **Angular** and **Material** for internal company tooling systems
- Optimized search solutions and reduced latency by 50% with **Elasticsearch**, **Logstash**, and **Kibana**

The JavaChip LLC

May 2022 - Feb 2023

Software Engineer

- Designed and developed dynamic and responsive websites with **HTML**, **CSS** and **JavaScript**
- Worked on portfolios and restaurant backends with **NestJS**, **SQL**, **Redis**
- Built admin panels for company employees using **AdminJS** and **React**

Projects

Edument | *NestJS, Postgres, Redis, MongoDB, Docker, BullMQ, Socket.io, FCM, AWS*

- Learning Management System for teachers, students, and parents
- Designed JWT Authentication/Authorization, File Uploading, Automatic Class Scheduling, and Chat System

The Mind Game | *NestJS, React, Socket.io, MySQL, Redis, Docker*

- Led a team of 5 engineers in developing a real-time online card game
- Helped with Game State Synchronization, Statistics Tracking, and Task Management

Platerra | *React, FastAPI, ArcGIS, PostgreSQL, GCP*

- Built a geospatial platform to track historical water and forest segmentation
- Developed UI/UX design, built full-stack architecture and mapping features, and deployed CV models on GCP

Activities & Awards

- UFAZ Hackathon – 1st Place
- Secure Energy Hackathon – 1st Place
- ActInSpace Hackathon – 2nd Place
- Secure Energy Hackathon – 2nd Place
- Strasbourg Summer School
- 100K+ USD Azerbaijan State Scholarship
- ICPC North American Qualifier Contestant
- IELTS 8.5 (L: 9 | R: 9 | W: 8 | S: 8.5)
